**St Helier, April 6, 2021** – Caledonia Mining Corporation Plc (“Caledonia” or the “Company” - <https://www.commodity-tv.com/ondemand/companies/profil/caledonia-mining-corporation-plc/>) is pleased to announce that its Central Shaft is now fully operational.

We can now start to hoist rock, men and material on a daily basis, which will solve our hoisting constraints and facilitate the planned expansion in mine capacity targeting 80,000 oz of gold production per year<sup>1</sup>.*

*“Commissioning the Central Shaft has been the culmination of a six-year project costing approximately \$67million, all funded through internal cash flow.*

*“This has been an owner-funded and built project by the Blanket team and I would like to thank everyone for their hard work and especially for achieving the completion of the shaft without any serious accidents, recording only two lost time injuries.”*
