Ivan Fairhall, Mawson CEO, states: *"This successful IPO clearly demonstrates the value created for Mawson shareholders, through careful project identification, skilled exploration effort, and considered capital markets strategizing. The C\$17.2 million market cap of our SXG stake equates to over half of Mawson's total market capitalization today, and this helps us shine a light on the value upside potential of our million-ounce gold equivalent inferred resource in Finland – to be articulated with our in-progress PEA and ongoing exploration efforts at Rajapalot and Skellefteå North.*

*SXG is now well funded for future success in exploring its exciting new discovery portfolio, and Mawson is very pleased to maintain a strategic stake in this business. On behalf of the Board of Mawson, I thank the SXG team for its hard work and congratulate them on this significant achievement."*
