

Victoria Gold: Filing of Updated Technical Report for the Eagle Gold Mine

Whitehorse, YT/ April 10, 2023 / Victoria Gold Corp. (TSX-VGCX) (“Victoria” or the “Company” - <https://www.commodity-tv.com/ondemand/companies/profil/victoria-gold-corp/>) has filed an updated technical report on its 100% owned Eagle Gold Mine (the “Report”), as reported in the Company’s news release dated February 24, 2023. The Report was prepared in accordance with the National Instrument 43-101 Standards of Disclosure for Mineral Projects. The Report can be found on the Company’s website at www.vgcx.com or under the Company’s issuer profile at www.sedar.com.

Summary of Updated Technical Report:

The Report considers cost and operating data from the last three years of operations at the Eagle Gold Mine. Optimizations incorporated in the Report include year-round stacking on the heap leach facility (“HLF”), stockpiling of lower grade material for end of mine life processing, and utilization of a mobile crusher to supplement and increase production rates. Key highlights of the updated plan are:

- After-tax net present value (“NPV”) at a 5% discount of \$954 million (\$1,257 million pre-tax), at US\$1,700 per ounce of gold and a US\$:C\$ exchange rate of 0.75.
- Average gold production of 202,000 ounces per year over the first 8 years, with peak production of 219,000 gold ounces in 2025.
- Average free cash flow (“FCF”) of \$166 million per year for the first 8 years with a total of \$1,602 million of FCF over the LOM.
- Total gold production of 2,048,000 ounces over a mine life of 12 years. This total does not include gold production prior to 31 December 2022.
- LOM All-in Sustaining Cost (“AISC”) of US\$1,114 per ounce of gold providing significant operating and profit margins at current gold prices.
- Throughput increase to steady-state level of 11.5 million tonnes processed per annum during 2025.

Qualified Person

The technical content of this news release has been reviewed and approved by Paul D. Gray, P.Geo., as the “Qualified Person” as defined in National Instrument 43-101 - *Standards of Disclosure for Mineral Projects*.

About the Dublin Gulch Property

Victoria Gold’s 100%-owned Dublin Gulch gold property (the “Property”) is situated in central Yukon Territory, Canada, approximately 375 kilometers north of the capital city of Whitehorse, and approximately 85 kilometers from the town of Mayo. The Property is accessible by road year round, and is located within Yukon Energy’s electrical grid.

The Property covers an area of approximately 555 square kilometers, and is the site of the Company's Eagle and Olive Gold Deposits. The Eagle and Olive deposits include Proven and Probable Reserves of 2.6 million ounces of gold from 124 million tonnes of ore with a grade of 0.65 grams of gold per tonne. The Mineral Resource for the Eagle and Olive Gold Deposits has been estimated to host 245 million tonnes averaging 0.59 grams of gold per tonne, containing 4.7 million ounces of gold in the "Measured and Indicated" category, inclusive of Proven and Probable Reserves, and a further 36 million tonnes averaging 0.63 grams of gold per tonne, containing 0.7 million ounces of gold in the "Inferred" category.

Non-IFRS Performance Measures

The Company has included certain non-IFRS measures in this new release. Refer to the Company's MD&A for an explanation, discussion and reconciliation of non-IFRS measures. The Company believes that these measures, in addition to measures prepared in accordance with International Financial Reporting Standards ("IFRS"), provide readers with an improved ability to evaluate the underlying performance of the Company and to compare it to information reported by other companies. The non-IFRS measures are intended to provide additional information and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with IFRS. These measures do not have any standardized meaning prescribed under IFRS, and therefore may not be comparable to similar measures presented by other issuers.

Cautionary Language and Forward-Looking Statements

This press release includes certain statements that may be deemed "forward-looking statements". Except for statements of historical fact relating to Victoria, information contained herein constitutes forward-looking information, including any information related to the intended use of proceeds from the Term Facility and the Revolving Credit Facility, the amended terms and conditions of the Loan Facility, and Victoria's strategy, plans or future financial or operating performance. Forward-looking information is characterized by words such as "plan", "expect", "budget", "target", "project", "intend", "believe", "anticipate", "estimate" and other similar words, or statements that certain events or conditions "may", "will", "could" or "should" occur, and includes any guidance and forecasts set out herein (including, but not limited to, production and operational guidance of the Corporation). In order to give such forward-looking information, the Corporation has made certain assumptions about its business, operations, the economy and the mineral exploration industry in general, in particular in light of the impact of the novel coronavirus and the COVID-19 disease ("COVID-19") on each of the foregoing. In this respect, the Corporation has assumed that production levels will remain consistent with management's expectations, contracted parties provide goods and services on agreed timeframes, equipment works as anticipated, required regulatory approvals are received, no unusual geological or technical problems occur, no material adverse change in the price of gold occurs and no significant events occur outside of the Corporation's normal course of business. Forward-looking information is based on the opinions, assumptions and estimates of management considered reasonable at the date the statements are made, and are inherently subject to a variety of risks and uncertainties and other known and unknown factors that could cause actual events or results to differ materially from those described in, or implied by, the forward-looking information. These factors include the impact of general business and economic conditions, risks related to COVID-19 on the Company, global liquidity and credit availability on the timing of cash flows and the values of assets

and liabilities based on projected future conditions, anticipated metal production, fluctuating metal prices, currency exchange rates, estimated ore grades, possible variations in ore grade or recovery rates, changes in accounting policies, changes in Victoria's corporate resources, changes in project parameters as plans continue to be refined, changes in development and production time frames, the possibility of cost overruns or unanticipated costs and expenses, uncertainty of mineral reserve and mineral resource estimates, higher prices for fuel, steel, power, labour and other consumables contributing to higher costs and general risks of the mining industry, failure of plant, equipment or processes to operate as anticipated, final pricing for metal sales, unanticipated results of future studies, seasonality and unanticipated weather changes, costs and timing of the development of new deposits, success of exploration activities, requirements for additional capital, permitting time lines, government regulation of mining operations, environmental risks, unanticipated reclamation expenses, title disputes or claims, limitations on insurance coverage and timing and possible outcomes of pending litigation and labour disputes, risks related to remote operations and the availability of adequate infrastructure, fluctuations in price and availability of energy and other inputs necessary for mining operations. Although Victoria has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in, or implied by, the forward-looking information, there may be other factors that cause actions, events or results not to be anticipated, estimated or intended. There can be no assurance that forward-looking information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. The reader is cautioned not to place undue reliance on forward-looking information. The forward-looking information contained herein is presented for the purpose of assisting investors in understanding Victoria's expected financial and operational performance and Victoria's plans and objectives and may not be appropriate for other purposes. All forward-looking information contained herein is given as of the date hereof, as the case may be, and is based upon the opinions and estimates of management and information available to management of the Corporation as at the date hereof. The Corporation undertakes no obligation to update or revise the forward-looking information contained herein and the documents incorporated by reference herein, whether as a result of new information, future events or otherwise, except as required by applicable laws.
