
CALIBRE LAUNCHES FILM ON SUSTAINABILITY INITIATIVES IN NICARAGUA AND REMAINS COMMITTED TO THE WORLD GOLD COUNCIL RESPONSIBLE GOLD MINING PRINCIPLES

Vancouver, B.C. – December 13, 2022: Calibre Mining Corp. (TSX: CXB; OTCQX: CXBMF) (“Calibre” or the “Company” - <https://www.commodity-tv.com/ondemand/companies/profil/calibre-mining-corp/>) is pleased to announce the release of a film about the Company’s approach to key principles of sustainability. The [documentary](#) addresses some of the core challenges facing our society and planet, including community health, biodiversity, and the restoration of fresh water sources in our forests. It highlights how Calibre is working in alliance with the Centre for an Understanding with Nature (“CEN”), an environmental organization with over 30 years experience in rural and indigenous communities in Nicaragua and Latin America, to overcome these challenges.

We are also pleased to announce the completion of the Year Two Statement of Progress toward conforming to the World Gold Council (“WGC”) Responsible Gold Mining Principles (“RGMPs”). Calibre joined the WGC in August 2020, with a commitment to align with their Principles (see our [Sustainability Report](#) dated June 2021).

Calibre’s RGMP self-assessment was completed in August 2022 and included a year-2 re-evaluation of conformance of our Nicaraguan assets and a year-1 assessment of conformance of our Pan Mine (see the Statement of Progress Report [here](#)). In addition, an independent third-party assurance report (found [here](#)) determined that during this time, Calibre complied with the WGC year-2 requirements as established in the RGMP assurance framework.

Darren Hall, President and Chief Executive Officer of Calibre, stated: “As a natural resource-based company, at Calibre we are aware of our socio-environmental responsibility. For this reason, we are advancing initiatives to protect our environment and strengthen the resilience of our communities. As seen in the short film, we feel that our partnership with CEN exemplifies how social and environmental responsibility is one of our core values.

“Calibre is committed to ensuring that our contribution to sustainability remains meaningful in a continuous effort to make the gold mining industry a sustainable practice. In March 2022, we launched a Five-Year Sustainability Strategy (2022-2026) (see news release dated [March 15, 2022](#)), forging a connection between Calibre and our partners’ internal responsible business practices, their contributions to the sustainability of our host communities, and global efforts to safeguard the future of our planet. As we progress toward improved sustainability, we remain dedicated to full conformance with the RGMPs within the WGC three-year time frame.”

Petri Salopera, Vice President, Sustainability of Calibre, stated: “At Calibre, sustainability is at the center of our way of doing business and fundamental to our long-term success. We are proud of the achievements announced today and of our partnership with CEN, and we are grateful for the opportunity to share these achievements through this documentary film.”

The film is hosted on [reuters.com](https://www.reuters.com) and can be found [here](#) and on the Company website at [calibremining.com](https://www.calibremining.com).

Cautionary Note Regarding Forward Looking Information

This news release includes certain "forward-looking information" and "forward-looking statements" (collectively "forward-looking statements") within the meaning of applicable Canadian securities legislation. All statements in this news release that address events or developments that we expect to occur in the future are forward-looking statements. Forward-looking statements are statements that are not historical facts and are identified by words such as "expect", "plan", "anticipate", "project", "target", "potential", "schedule", "forecast", "budget", "estimate", "intend" or "believe" and similar expressions or their negative connotations, or that events or conditions "will", "would", "may", "could", "should" or "might" occur. Forward-looking statements necessarily involve assumptions, risks, and uncertainties, certain of which are beyond Calibre's control. For a listing of risk factors applicable to the Company, please refer to Calibre's annual information form for the year ended December 31, 2021, available on www.sedar.com. This list is not exhaustive of the factors that may affect Calibre's forward-looking statements.

Calibre's forward-looking statements are based on the applicable assumptions and factors management considers reasonable as of the date hereof, based on the information available to management at such time. Calibre does not assume any obligation to update forward-looking statements if circumstances or management's beliefs, expectations or opinions should change other than as required by applicable securities laws. There can be no assurance that forward-looking statements will prove to be accurate, and actual results, performance or achievements could differ materially from those expressed in, or implied by, these forward-looking statements. Accordingly, undue reliance should not be placed on forward-looking statements.
