Overview

As announced on the 18th March 2022, following the enforced suspension of all operations at the Caijiaying Mine for the Chinese Lunar New Year holiday celebrations, the Winter Olympics and the subsequent Winter Paralympics, mining recommenced on the 23rd March and processing on the 25th March 2022.

Since the recommencement of operations, mining and processing rates have steadily increased. Despite Covid-19 restrictions remaining in force throughout China, operational supplies and services continue to be delivered to the Caijiaying Mine. Since the end of the first quarter of 2022, 4,000 tonnes of zinc concentrate have already been sold.
