## VIZSLA SILVER ACHIEVES ONE MILLION WORKING-HOURS WITHOUT A LOST TIME INCIDENT

Vancouver, British Columbia (November 22, 2022) – Vizsla Silver Corp. (TSX-V: VZLA) (NYSE: VZLA) (Frankfurt: 0G3) (“Vizsla” or the “Company” - <https://www.commodity-tv.com/ondemand/companies/profil/vizsla-silver-corp/>) is pleased to announce it has achieved a safety milestone exceeding one million consecutive work hours without a lost time incident at its 100%-owned flagship Panuco silver-gold project (“Panicu”) in Mexico.

*“Our safety record and ongoing environmental performance demonstrates the Company’s commitment to responsibly and positively impacting the communities where we operate,”* stated Michael Konnert, President and CEO. *“The safety of all employees and contractors working at Panuco is a core value for the Company and is paramount to running a successful project. This, combined with the commitment and effort of all workers to ensure all work is performed in the safest manner, has made this achievement possible.”*

*“I am extremely proud of all employees and contractors working at the Panuco project,”* commented Hernando Rueda, Country Manager. *“Since the start of our work at Panuco in 2019, the Company has prioritized developing a safety culture, where all employees work together to facilitate a safe working environment. This milestone achievement of one million working hours without a lost time incident is a testament to the employees’ commitment to this philosophy.”*

The Company would like to commend the project Health and Safety department for developing and implementing a world-class safety program at Panuco. With support at all levels of management from the site through to the board of directors, the Health and Safety department has achieved buy-in to their safety program from the workforce, partner companies, and other stakeholders on site.

### **About the Panuco project**

The newly consolidated Panuco silver-gold project is an emerging high-grade discovery located in southern Sinaloa, Mexico, near the city of Mazatlán. The 6,761-hectare, past producing district benefits from over 86 kilometres of total vein extent, 35 kilometres of underground mines, roads, power, and permits.

The district contains intermediate to low sulfidation epithermal silver and gold deposits related to siliceous volcanism and crustal extension in the Oligocene and Miocene. Host rocks are mainly continental volcanic rocks correlated to the Tarahumara Formation.

Panuco hosts an estimated in-situ indicated mineral resource of 61.1 Moz AgEq and an in-situ inferred resource of 45.6 Moz AgEq. A NI 43-101 technical report, titled “National Instrument 43-101 Technical Report for the Panuco Project Mineral Resource Estimate Concordia, Sinaloa, Mexico” was filed on SEDAR on April 7, 2022, with an effective date of March 1, 2022 was prepared by Tim Maunula, P.Ge., Principal

Geologist, T. Maunula & Associates Consulting Inc and Kevin Murray, P.Eng, Manager Process Engineering, Ausenco.

### **Addition of Advisor**

The Company is pleased to report that Veljko Brcic has moved from SVP of Corporate Development role to the position of Corporate Development Advisor to Vizsla Silver. The Company thanks Mr. Brcic for his numerous contributions, including leading the transformative completion of both the Silverstone and Panuco option agreements for Vizsla Silver.

### **About Vizsla Silver**

Vizsla Silver is a Canadian mineral exploration and development company headquartered in Vancouver, BC, focused on advancing its flagship, 100%-owned Panuco silver-gold project located in Sinaloa, Mexico. To date, Vizsla has completed over 210,000 metres of drilling at Panuco leading to the discovery of several new high-grade veins. For 2022, Vizsla has budgeted +120,000 metres of resource/discovery-based drilling, designed to upgrade, and expand the maiden resource as well as test other high priority targets across the district.

### **Qualified Person**

In accordance with NI 43-101, Martin Dupuis, P.Geo., COO, is the Qualified Person for the Company and has reviewed and approved the technical and scientific content of this news release.

### **SPECIAL NOTE REGARDING FORWARD LOOKING STATEMENTS**

This news release includes certain “Forward-Looking Statements” within the meaning of the United States Private Securities Litigation Reform Act of 1995 and “forward-looking information” under applicable Canadian securities laws. When used in this news release, the words “anticipate”, “believe”, “estimate”, “expect”, “target”, “plan”, “forecast”, “may”, “would”, “could”, “schedule” and similar words or expressions, identify forward-looking statements or information. These forward-looking statements or information relate to, among other things: the exploration, development, and production at Panuco, including plans for resource/discovery-based drilling, designed to upgrade and expand the maiden resource, and publication of a resource update in Q4 2022.

Forward-looking statements and forward-looking information relating to any future mineral production, liquidity, enhanced value and capital markets profile of Vizsla, future growth potential for Vizsla and its business, and future exploration plans are based on management's reasonable assumptions, estimates, expectations, analyses and opinions, which are based on management's experience and perception of trends, current conditions and expected developments, and other factors that management believes are relevant and reasonable in the circumstances, but which may prove to be incorrect. Assumptions have been made regarding, among other things, the price of silver, gold, and other metals; no escalation in the severity of the COVID-19 pandemic; costs of exploration and development; the estimated costs of development of exploration projects; Vizsla's ability to operate in a safe and effective manner and its ability to obtain financing on reasonable terms.

These statements reflect Vizsla's respective current views with respect to future events and are necessarily based upon a number of other assumptions and estimates that, while considered reasonable by management, are inherently subject to significant business, economic, competitive, political and social uncertainties and contingencies. Many factors, both known and unknown, could cause actual results, performance, or achievements to be materially different from the results, performance or achievements that are or may be expressed or implied by such forward-looking statements or forward-looking information and Vizsla has made assumptions and estimates based on or related to many of these factors. Such factors include, without limitation: the Company's dependence on one mineral project; precious metals price volatility; risks associated with the conduct of the Company's mining activities in Mexico; regulatory, consent or permitting delays; risks relating to reliance on the Company's management team and outside contractors; risks regarding mineral resources and reserves; the Company's inability to obtain insurance to cover all risks, on a commercially reasonable basis or at all; currency fluctuations; risks regarding the failure to generate sufficient cash flow from operations; risks relating to project financing and equity issuances; risks and unknowns inherent in all mining projects, including the inaccuracy of reserves and resources, metallurgical recoveries and capital and operating costs of such projects; contests over title to properties, particularly title to undeveloped properties; laws and regulations governing the environment, health and safety; the ability of the communities in which the Company operates to manage and cope with the implications of COVID-19; the economic and financial implications of COVID-19 to the Company; operating or technical difficulties in connection with mining or development activities; employee relations, labour unrest or unavailability; the Company's interactions with surrounding communities and artisanal miners; the Company's ability to successfully integrate acquired assets; the speculative nature of exploration and development, including the risks of diminishing quantities or grades of reserves; stock market volatility; conflicts of interest among certain directors and officers; lack of liquidity for shareholders of the Company; litigation risk; and the factors identified under the caption "Risk Factors" in Vizsla's management discussion and analysis. Readers are cautioned against attributing undue certainty to forward-looking statements or forward-looking information. Although Vizsla has attempted to identify important factors that could cause actual results to differ materially, there may be other factors that cause results not to be anticipated, estimated or intended. Vizsla does not intend, and does not assume any obligation, to update these forward-looking statements or forward-looking information to reflect changes in assumptions or changes in circumstances or any other events affecting such statements or information, other than as required by applicable law.
